

LENGTH	20' 11"
BEAM	8' 6"
DEADRISE	20°
APPROX. DRY WEIGHT	3,500 LBS
FUEL CAPACITY	107 GAL
DRAFT ENGINE UP (APPROX.)	15"
MAX. HORSEPOWER	250
LIVWELL CAP.	20 GAL.
BRIDGE CLEARANCE (APPROX.)	8' W/ T-TOP

## 2100 CENTER CONSOLE

The 2100 Center Console is designed for a great day of fishing. Its flared bow and tall freeboard provides a dry ride out to the fishing grounds. The Kevlar reinforced hull along with our Dyna-Core hullside construction provide the durability you are looking for in an offshore boat. The helm has room for the latest electronic displays while the tempered glass windshield shields you from the elements. Large Baitwell, cooler, rear seats add to an enjoyable day of fishing.

### CONSTRUCTION

- » Full Composite Construction
- » Hand-laid Fiberglass Lamination
- » Integrated Fiberglass Structural Stringer, System Injected with Urethane Flotation Foam
- » KV Kevlar Reinforcement
- » Bi-Axial Fiberglass and Woven Roving
- » Composite Transom Core
